I am delighted to welcome you to the special 10th anniversary of our flagship event and South Asia’s largest pharma event, CPhI and P-MEC. This year, we have plenty of firsts surrounding the event that we are rather proud of. For the first time in its decade long history, the event is being held at two concurrent venues – The Bombay Exhibition Centre and MMRDA Grounds, Bandra Kurla Complex -- in Mumbai. But most importantly, to celebrate this landmark, the 2016 edition of CPhI & P-MEC expo features the weeklong India Pharma Week, with more than 10 eclectic events and activities that are simultaneously being held across the city of Mumbai.

Today India is the world’s third largest pharma market by volume and a preferred pharmerging market with a size of $13 billion (2015). In the past decade, it has evolved into multiple streams and expanded its capacities to emerge into the global arena as a reputed player. This transition in a way also summarises the remarkable role played by CPhI & P-MEC in the past decade. The expo since its inception in 2006 has grown year-on-year owing to its proposition and the annual event has progressed to become the most sought after event in the Indian pharma sector.

The CPhI & P-MEC is a true melting pot of ideas and we at UBM India have been honoured to be the catalyst to change in the industry – equally supported by the doyens and innovators from the sector.

With the vastly successful Pre-Connect Congress; Women in Pharma – Power Breakfast; the India Pharma Awards; Networking Evening; Plant Visits, and the Pharma Leaders’ Golf, all under the aegis of the India Pharma Week already behind us, the focus now continues with the CPhI & P-MEC India Exhibition; the closed door CEO Roundtable and knowledge sharing avenues like the Exhibitor Showcase and the Innovation Gallery.

With complete support from the Industry thought leaders, pharma giants and associations, the India Pharma Week and CPhI & P-MEC are poised to provide a reputed platform to Indian and global pharma companies for knowledge sharing, co-operation, collaboration and mapping the addressable issues in the industry.

This year, we are delighted to host over 1,300 exhibitors in the space and I take this opportunity to express my gratitude for your continued and unstinted support for the show.

On behalf of UBM India, I wish you all a super-successful India Pharma Week, CPhI & P-MEC 2016.

Best wishes,

Yogesh Mudras
Managing Director
UBM India Pvt. Ltd.
A bold week of business for a bold and successful industry - welcome to CPhI India Pharma Week with CPhI and P-MEC India

CPhI and P-MEC India is now 10-years old, and to mark this occasion, we have transformed the traditional exhibition into a weeklong celebration of all things ‘Indian pharma’ – a concentrated business, a valuable networking and learning opportunity and a hotbed of innovation.

Exploring the two CPhI India exhibition centres, it’s remarkable what has been achieved by the Indian pharma Industry in such a short time. The breathless pace of change and the diversification from simple ingredients to complex generics, machinery, finished products and biosimilars. But how did the industry get here, and what is next for this pharma industry powerhouse? For me, the strength of India’s pharma economy is built on not only its global outlook, but also, its boldness in wanting to push new boundaries, products and services.

That is why this week, UBM has embraced this boldness and has taken stock of the industry to introduce a weeklong event that captures all facets of the supply chain – creating a programme of activity that is truly reflective of this country’s size, scope and importance to patients worldwide.

The Indian pharma market is growing at CAGR of 16% and is expected to be worth USD 55 billion in 2020. The country remains the leading global exporter of APIs and a prime pharma hub, producing a third of the world’s medicines, including an emerging portfolio of new drugs. Unsurprisingly, India boasts over 300 large companies and a further 10,000 SMEs. Hugely impressive numbers that only tell half the story.

After a decade of double-digit growth, it is perhaps fitting that we should this year extend the event across two venues – the Bombay Exhibition Centre (BEC) and the MMRDA Grounds, Bandra Kurla Complex (BKC) – with excellent transport links between the two. The BEC will play host to CPhI and P-MEC audiences, focussing on ingredients, pharma machinery and equipment, whilst the BKC will host companies across finished formulations, lab chemicals, analytical and laboratory equipment, as well as contract services providers through ICSE.

In total, we will welcome more than 40,000 attendees, 1200 exhibitors from 110+ countries to network, collaborate and do business. As a result, we simply needed more space and scope to accommodate the breadth of capabilities now present. Emphasising this growing prestige, the CPhI Indian pharma awards will feature on national television in India, with a documentary team from ARD German television also on site to cover the industry’s rapid globalisation.

It gives me immense pride that UBM has been an integral part of this internationalisation and we have evaluated the core tenets of its success to see how we can further integrate the industry. At India Pharma Week, we celebrate the six pillars that encapsulate the essence of CPhI and India pharma – knowledge, business, leadership, innovation, recognition and networking.

Knowledge remains integral to the event, and 2016 sees an expanded content platform with thought leadership at its core with the Pre-Connect Congress – running across the Thursday and Friday prior to the event – and the CPhI Women in Pharma Power Breakfast. Business opportunities are developed and enhanced through the eponymous exhibitions, CPhI and P-MEC, and the 10 separate events, across two dynamic venues. The CEO Roundtable celebrates and encourages leadership, and will bring together 20 senior pharma executives to discuss the future of the industry and ‘Building Brand India to a USD 300 billion industry by 2030’. Innovation will be presented in the form of the innovation gallery – showcasing the latest developments on an international platform in the Pharma Forum – and recognition through the expanded CPhI India Pharma Awards. This year’s awards feature 14 different categories, and a prestigious ceremony at the Weston Mumbai Garden City. Beyond the exhibition and learning opportunities, we have been bold in other ways, and have launched Pharma Leaders Golf day so you can meet and network with your peers in a more informal, if not, less competitive environment. But most crucially, to give a fuller picture to our attendees, we also arranged plant visits to see first-hand some of the most advanced facilities in the country and pharma success stories.

Enjoy your week, be confident in your meetings, and immerse yourself in this week long opportunity to mix with the world of pharma products, people & solutions. Fortune, after all, is said to favour the brave.

Rutger Oudejans
Brand Director, Pharma UBM EMEA
P. K. GUPTA
Chairman CIPI

Confederation of Indian Pharmaceutical Industry (CIPI), New Delhi

It gives me immense pleasure to ahead this message to UBM India for organizing CPhI & P-MEC India between November 21-23, 2016 in Bombay Exhibition Center, Mumbai (India).

On behalf of Confederation of Indian Pharmaceutical Industry (CIPI), I congratulate the organizers for conceptualizing and giving shape to such an event in India and express my best wishes for the grand success to this exposition which gives great opportunity for the global customers to access the range of India’s Pharmaceutical capabilities including Pharma Machinery / Equipments, API & Formulations.

I am optimistic that the event will act as a catalyst and provide further boost to the industry by highlighting India’s capabilities for producing quality and affordable source for supply of medicines. I encourage all the members whole heartedly to attend and take advantage of this opportunity.

I am confident that CPhI & P-MEC India witnessing the gathering of Indian Pharma suppliers, global suppliers, industry experts will give impetus to our efforts for further development of Indian pharma industry.

I extend my greetings to all the exhibitors and visitors and pray to the almighty for a successful event. I also present my sincere appreciation to all the organizers who have worked hard, to make it a grand event.

P. K. Gupta

Money talks. But we help you start the right conversations.

Having a team of experts working for you is good. But it’s the synergy between our experts and platforms that creates real magic for you.

It’s good to be a business with offices around the world. It’s better being a multinational that delivers success to businesses the world over.

We cater to 16 verticals – from pharma to jewellery, and nuclear energy through 25 exhibitions, 40 conferences, 6 awards, and 5 publications.

We don’t just connect you to your market. At UBM we start the conversations that enable your business.

Organised by:
Founded in 1998, Webtech Labels Pvt. Ltd. is the Largest manufacturers of self-adhesive labels for the Pharmaceutical Industry in India. Production capacities include more than 20 high-speed Label production lines. Equipped with advanced printing technologies like UV Flexo, UV Screen and Digital Printing, our manufacturing units across India can execute multi-location deliveries. Automatic vision camera systems ensure that each label undergoes 100% quality inspection before delivery; and customized, well-engineered products are geared to address counterfeiting and brand security issues.

Our stringent manufacturing processes and award-winning quality and performance has built trust in more customers over the years across various industries.

Whether you want to develop new product, enhance the look of existing one, differentiate your brand to make it stand out in the marketplace or fight against counterfeiting, ACG’s Brandshield™ is your best choice. Brandshield™ is a proprietary and patented technology of ACG that enables robust anti-counterfeiting & brand differentiation solution for pharmaceutical companies.

Brandshield™ comprises of uniquely pre-printed empty hard capsules and speciality packaging film. You can print brand name, logo, text message or a combination thereof on the capsules surface in a unique 360 degree pattern or in four colour combination. A differential grated embedded image film with advanced anti-counterfeiting and security features enhances the protection. Brandshield™ works well on existing equipment and needs no extra investment. Capsule is available in multiple sizes and colour options and film is available in clear, colored and metallic versions.
Zim laboratories Ltd is an established developer of Differentiated Formulations since the last 25 years. We are known for our innovative and novel products and process technologies.

Thinoral ® technology is our latest innovative technology platform that yields instantly wettable, rapidly dissolving, non-sticky, non-tacky and non-curving films with drug loading, as high as 100 mg of the active drug. Various actives with varying character have been successfully developed in Thinorals ®. It is a better alternative to ODTs because Thinoral ® films because of the flexibility of films.

Thinoral ® technology, offers successful delivery of variety of drug molecules simultaneously providing a once in life-time opportunity to create new or extend existing brands with a unique new dosage form possessing a high technology barrier for competition!

Your master key to success
Chemical Weekly
Opens your mind
to a whole new
World of Chemicals

Since 1955, Chemical Weekly has been the leading news magazine and trade journal in India. Every Tuesday, a mix of news, views, market information and trade data are offered in print and electronic media, to give you the competitive edge that comes from staying well-informed.

What a subscription to CHEMICAL WEEKLY gets you

- 52 issues delivered every week to your doorstep anywhere in the world.
- Free access to the web edition (News Track at www.chemicalweekly.com), including access to the archives (for more than 12 years) in a searchable database format.
- Free access to ChemXchange - database of advertisers - where you can locate suppliers and users of your products and services

India’s only Web Based Directory on Indian Chemical Industry and Trade

Chemical Weekly Buyers’ Guide

The Chemical Weekly Buyers' Guide is the most definitive and primary source of information on the chemical and allied industries in India.

This Directory is available on a web-based platform ensuring timely and accurate information.

The CWBG includes three databases:
@ Chemicals and related products
@ Chemical plant, equipment & instrumentation
@ Consultants

COVERS
♦ Manufacturers
♦ Dealers
♦ Indentors
♦ Merchant Exporters

Description: We are a biorefining company that produces sugar, other foods, biofuels, chemicals, power, compost, waxes, and related products, using sugarcane as the primary feedstock. Our aim is to engage in research and innovate by continuously making new products and entering new markets in order to derive the maximum value from our feedstock. Our research areas include sustainable farming, transformation of biomass (chemical, mechanical and biological), product development, and process optimization. Founded in 1939, we have been pioneers in the growing, processing, and utilization of biomass to make a wide variety of products. We are now working on the next generation bagasse-based biorefinery and also the biotransformation of sugar to biopolymers. We manufacture, pack, and distribute sugar to retail, industrial and export customers. Launched in October 2014, Jivana, our retail brand, aims to provide good quality foods to Indian homes whilst uplifting lives of the farmers who nurture these products from the start. All Jivana products are responsibly grown and harvested.

Description: INDENTA GROUP, Founded in 1970 by an ambitious enterprising visionary M.K.Menon, Our’s is a story of daring and dedicated people. A story of people dedicating themselves by serving society, most visibly through intensive research, development and manufacture of innovative and useful products. Our people are proud of their achievements, and yet humble in realizing that even the best can should improve. The Indenta story started in 1970 with a handful of spirited people, working with meagre facilities at their disposal, in a hostile environment with limited resources. Today, the environment has improved considerably but the pioneering spirit of a close knit family has remained. We are a complex blending of merchant and missionary, doer and dreamer, entrepreneur and professionals.

Our business scope covers numerous fields like chemistry, materials science, liquid crystal, medicine, solar energy and new energy resources. We have strong capacity of research, innovation and production and have a team of experts who have participated in the practice of technological development for a long time. We have R&D center and production base, so that we can provide our clients products and service quickly and efficiently.
Product:
Fine chemicals, Intermediates

Zhuhai Rundu Pharmaceutical Co., Ltd.

Booth No: L68 - BEC
Address: No. 6, North Airport Road, Jinwan District, Zhuhai City, Guangdong Province, China.
Tel: 0756-7630100
Fax: 0792-8181338
Email: ltq@rdpharma.cn
Website: www.rdpharma.cn
Contact Person: LI TIEQI
Description:
Zhuhai Rundu Pharmaceutical Co., Ltd. was incorporated in 1997, it locates in Zhuhai City, nearby Hong Kong. The company is manufacturing and supplying the Intermediates & Pellets, APIs and Finished products for wide range of therapeutic categories, therapeutic segments of focus on hypertensives, Antiulceratives, Antibacterial, Antianginals, Anticancer and Anaesthetic. We have two initiated green field factories cover an area of 10000m2 currently has over 800 employees.
Product:
Active Pharmaceutical Ingredients, Chemical synthesis / analysis, Intermediates

ZHUSHAN COUNTY TIANXIN MEDICAL & CHEMICAL CO., LTD

Booth No: BC13 - BKC
Address: Tutang Road, Chengguan Town, Zhushan County, Hubei, China
Tel: 86-25-52875120
Fax: 86-25-52875692
Email: 350066847@qq.com
Website: www.tianxinzhushan.com
Contact Person: GUO LI
Description:
Taking full advantage of local abundant gallnut resources, Tianxin becomes a high technology enterprise, whose main products extend to three series including tannic acid, gallic acid, trimethoxybenzoic acid. And they are widely used in many areas, such as minerals, pharmaceuticals, chemicals, agrochem, foods, dyestuffs, electronics, beer, chemistry analysis and petroleum energy etc.
Product:
Fine chemicals, Intermediates, Medicinal plants, Plant / animal extracts

Zhengzhou Frontier International Trade Co., Ltd

Booth No: CB14 - BKC
Address: NO. 06, 13FLOOR, 1 UNIT, NO. 25 BUILDING, SHANG WU NEI HUAN ROAD, ZHENG DONG NEW DISTRICT, ZHENGZHOU CITY, HENAN PROVINCE, CHINA.
Tel: 0086 13839650524
Fax: 0086-371-60229858
Email: marketing.hanna@glassampoule.cn
Website: https://ampoule.en.alibaba.com/?spm=a2700.775620
Contact Person: Wang Feng
Description:
WE ARE MANUFACTURE OF GLASS AMPOULE, GLASS VIAL AND GLASS TUBE IN CHINA. WE HAVE TWO FACTORIES.
Product:
glass packaging for medicine
Zim Laboratories Ltd.
Booth No: I77 - BEC
Address: B-21/22,MIDC Area,Kalmeshwar 441 501,Nagpur,MS,India.
Tel: 917118271990
Fax: 91711827199011

India’s most comprehensive
Analytical, Lab, Pharma Machinery & Contract Services Event.

PharmaLytica 2017 is an emerging global platform set to attract 200+ Exhibitors, 5000+ Visitors, and over 200 delegates & speakers to the exhibition and its knowledge based conference sessions. The show gives a comprehensive insight into the latest Analytical, Biotech, Lab, Pharma Machinery and Outsourcing trends within the Pharma industry.

11-12 August 2017
HITEX, Hyderabad, India
www.pharmalytica.in

For Bookings Contact:
Yogita Panchal +91 99300 27424 | +91 22 61727510 | yogita.panchal@ubm.com
Your gateway to the Turkish, Middle Eastern & African pharma markets

The quickest and most cost effective way to source and expand into this booming market - Meet with 200+ local, regional and international pharma companies in the city that bridges East and West

Easiest way to build new partnerships
Find new partners for future collaboration through the Matchmaking Programme

Join free-to-attend CPhI Istanbul Conference
Learn from expert industry speakers where the market is headed through a series of dedicated sessions which span the pharmaceutical value chain

4 events in 1 – Find solutions and manufacturers for the entire pharma value chain in one single location: pharma ingredients, machinery, packaging solutions and contract services

Find out more at www.cphi-istanbul.com

8-10 March 2017
Istanbul Expo Center (IFM), Istanbul • Turkey

This fair is organized with audit of the union of chambers and commodity exchanges of Turkey in accordance with the law number 5174
A Step Beyond Quality Consistency

It has been our philosophy to conduct business with integrity. That is why over 25 principal partners from USA, Europe and Japan have put their faith and trust in Signet to enhance their business in India.
“Made precisely to order, Monsieur”

Research & Manufacturing House for BROMINE & LITHIUM compounds

We at Neogen produce world-class speciality chemicals precisely according to your specifications. So, the next time you have a specific requirement, it would be our pleasure to serve you.

We Specialize In:

- Alkyl Bromides
- Cycloalkyl Bromides
- Bromo Chloro Alkanes
- Benzene Based Bromo Compounds
- Grignard Reagents
- Specialty Chloro Compounds
- Dibromo Alkanes
- Cycloalkyl Chlorides
- Bromo Acids and their Esters
- Benzene Based Bromo Chloro Compounds
- Lithium Salts
- Functional Bromo Fluro Derivatives
- Any other Speciality Compounds

Also offering custom Advance API Intermediates for Pharma & Agro Industry

Coming up in 2017 Additional 250 m³ cGMP (Glassline + SS) Reactor Capacity for Advance Intermediates
(Temperature: - 60° to + 260°, Pressure: 1 mm Hg to 30 Bar)

Together We Excel
