I am delighted to welcome you to the special 10th anniversary of our flagship event and South Asia’s largest pharma event, CPhI and P-MEC. This year, we have plenty of firsts surrounding the event that we are rather proud of. For the first time in its decade long history, the event is being held at two concurrent venues – The Bombay Exhibition Centre and MMRDA Grounds, Bandra Kurla Complex – in Mumbai. But most importantly, to celebrate this landmark, the 2016 edition of CPhI & P-MEC expo features the weeklong India Pharma Week, with more than 10 eclectic events and activities that are simultaneously being held across the city of Mumbai.

Today India is the world’s third largest pharma market by volume and a preferred pharmerging market with a size of $13 billion (2015). In the past decade, it has evolved into multiple streams and expanded its capacities to emerge into the global arena as a reputed player. This transition in a way also summarises the remarkable role played by CPhI & P-MEC in the past decade. The expo since its inception in 2006 has grown year-on-year owing to its proposition and the annual event has progressed to become the most sought after event in the Indian pharma sector.

The CPhI & P-MEC is a true melting pot of ideas and we at UBM India have been honoured to be the catalyst to change in the industry – equally supported by the doyens and innovators from the sector.

With the vastly successful Pre-Connect Congress; Women in Pharma – Power Breakfast; the India Pharma Awards; Networking Evening; Plant Visits, and the Pharma Leaders’ Golf, all under the aegis of the India Pharma Week already behind us, the focus now continues with the CPhI & P-MEC India Exhibition; the closed door CEO Roundtable and knowledge sharing avenues like the Exhibitor Showcase and the Innovation Gallery.

With complete support from the Industry thought leaders, pharma giants and associations, the India Pharma Week and CPhI & P-MEC are poised to provide a reputed platform to Indian and global pharma companies for knowledge sharing, co-operation, collaboration and mapping the addressable issues in the industry.

This year, we are delighted to host over 1,300 exhibitors in the space and I take this opportunity to express my gratitude for your continued and unstinted support for the show.

On behalf of UBM India, I wish you all a super-successful India Pharma Week, CPhI & P-MEC 2016.

Best wishes,

Yogesh Mudras
Managing Director
UBM India Pvt Ltd.
A bold week of business for a bold and successful industry - welcome to CPhI India Pharma Week with CPhI and P-MEC India

CPhI and P-MEC India is now 10-years old, and to mark this occasion, we have transformed the traditional exhibition into a weeklong celebration of all things ‘Indian pharma’ – a concentrated business, a valuable networking and learning opportunity and a hotbed of innovation.

Exploring the two CPhI India exhibition centres, it’s remarkable what has been achieved by the Indian pharma Industry in such a short time. The breathless pace of change and the diversification from simple ingredients to complex generics, machinery, finished products and biosimilars. But how did the industry get here, and what is next for this pharma industry powerhouse? For me, the strength of India’s pharma economy is built on not only its global outlook, but also, its boldness in wanting to push new boundaries, products and services.

That is why this week, UBM has embraced this boldness and has taken stock of the industry to introduce a weeklong event that captures all facets of the supply chain – creating a programme of activity that is truly reflective of this country’s size, scope and importance to patients worldwide.

The Indian pharma market is growing at CAGR of 16% and is expected to be worth USD 55 billion in 2020. The country remains the leading global exporter of APIs and a prime pharma hub, producing a third of the world’s medicines, including an emerging portfolio of new drugs. Unsurprisingly, India boasts over 300 large companies and a further 10,000 SMEs. Hugely impressive numbers that only tell half the story.

After a decade of double-digit growth, it is perhaps fitting that we should this year extend the event across two venues – the Bombay Exhibition Centre (BEC) and the MMRDA Grounds, Bandra Kurla Complex (BKC) – with excellent transport links between the two. The BEC will play host to CPhI and P-MEC audiences, focussing on ingredients, pharma machinery and equipment, whilst the BKC will host companies across finished formulations, lab chemicals, analytical and laboratory equipment, as well as contract services providers through ICSE.

In total, we will welcome more than 40,000 attendees, 1200 exhibitors from 110+ countries to network, collaborate and do business. As a result, we simply needed more space and scope to accommodate the breadth of capabilities now present. Emphasising this growing prestige, the CPhI Indian pharma awards will feature on national television in India, with a documentary team from ARD German television also on site to cover the industry’s rapid globalisation.

It gives me immense pride that UBM has been an integral part of this internationalisation and we have evaluated the core tenets of its success to see how we can further integrate the industry. At India Pharma Week, we celebrate the six pillars that encapsulate the essence of CPhI and India pharma – knowledge, business, leadership, innovation, recognition and networking.

Knowledge remains integral to the event, and 2016 sees an expanded content platform with thought leadership at its core with the Pre-Connect Congress – running across the Thursday and Friday prior to the event – and the CPhI Women in Pharma Power Breakfast. Business opportunities are developed and enhanced through the eponymous exhibitions, CPhI and P-MEC, and the 10 separate events, across two dynamic venues. The CEO Roundtable celebrates and encourages leadership, and will bring together 20 senior pharma executives to discuss the future of the industry and ‘Building Brand India to a USD 300 billion industry by 2030’. Innovation will be presented in the form of the innovation gallery – showcasing the latest developments on an international platform in the Pharma Forum – and recognition through the expanded CPhI India Pharma Awards. This year’s awards feature 14 different categories, and a prestigious ceremony at the Weston Mumbai Garden City.

Beyond the exhibition and learning opportunities, we have been bold in other ways, and have launched Pharma Leaders Golf day so you can meet and network with your peers in a more informal, if not, less competitive environment. But most crucially, to give a fuller picture to our attendees, we also arranged plant visits to see first-hand some of the most advanced facilities in the country and pharma success stories.

Enjoy your week, be confident in your meetings, and immerse yourself in this week long opportunity to mix with the world of pharma products, people & solutions. Fortune, after all, is said to favour the brave.

Rutger Oudejans
Brand Director, Pharma UBM EMEA
Confederation of Indian Pharmaceutical Industry (CIPI), New Delhi

It gives me immense pleasure to ahead this message to UBM India for organizing CPhI & P-MEC India between November 21-23, 2016 in Bombay Exhibition Center, Mumbai (India).

On behalf of Confederation of Indian Pharmaceutical Industry (CIPI), I congratulate the organizers for conceptualizing and giving shape to such an event in India and express my best wishes for the grand success to this exposition which gives great opportunity for the global customers to access the range of India’s Pharmaceutical capabilities including Pharma Machinery / Equipments, API & Formulations.

I am optimistic that the event will act as a catalyst and provide further boost to the industry by highlighting India’s capabilities for producing quality and affordable source for supply of medicines. I encourage all the members whole heartedly to attend and take advantage of this opportunity.

I am confident that CPhI & P-MEC India witnessing the gathering of Indian Pharma suppliers, global suppliers, industry experts will give impetus to our efforts for further development of Indian pharma industry.

I extend my greetings to all the exhibitors and visitors and pray to the almighty for a successful event. I also present my sincere appreciation to all the organizers who have worked hard, to make it a grand event.

CPhI India  P-MEC  CPhI Online
Founded in 1998, Webtech Labels Pvt. Ltd. is the largest manufacturers of self-adhesive labels for the Pharmaceutical Industry in India. Production capacities include more than 20 high-speed label production lines. Equipped with advanced printing technologies like UV Flexo, UV Screen and Digital Printing, our manufacturing units across India can execute multi-location deliveries. Automatic vision camera systems ensure that each label undergoes 100% quality inspection before delivery; and customized, well-engineered products are geared to address counterfeiting and brand security issues.

Our stringent manufacturing processes and award-winning quality and performance has built trust in more customers over the years across various industries.

Whether you want to develop new product, enhance the look of existing one, differentiate your brand to make it stand out in the marketplace or fight against counterfeiting, ACG’s Brandshield™ is your best choice. Brandshield™ is a proprietary and patented technology of ACG that enables robust anti-counterfeiting & brand differentiation solution for pharmaceutical companies.

Brandshield™ comprises of uniquely pre-printed empty hard capsules and speciality packaging film. You can print brand name, logo, text message or a combination thereof on the capsules surface in a unique 360 degree pattern or in four colour combination. A differential grated embedded image film with advanced anti-counterfeiting and security features enhances the protection. Brandshield™ works well on existing equipment and needs no extra investment. Capsule is available in multiple sizes and colour options and film is available in clear, colored and metallic versions.
Zim laboratories Ltd is an established developer of Differentiated Formulations since the last 25 years. We are known for our innovative and novel products and process technologies.

Thinoral ® technology is our latest innovative technology platform that yields instantly wettable, rapidly dissolving, non-sticky, non-tacky and non-curving films with drug loading, as high as 100 mg of the active drug. Various actives with varying character have been successfully developed in Thinorals ®. It is a better alternative to ODTs because Thinoral ® films because of the flexibility of films.

Thinoral ® technology, offers successful delivery of variety of drug molecules simultaneously providing a once in life-time opportunity to create new or extend existing brands with a unique new dosage form possessing a high technology barrier for competition!

Your master key to success
Opens your mind
to a whole new
World of Chemicals

Since 1955, Chemical Weekly has been the leading news magazine and trade journal in India. Every Tuesday, a mix of news, views, market information and trade data are offered in print and electronic media, to give you the competitive edge that comes from staying well-informed.

What a subscription to CHEMICAL WEEKLY gets you

- 52 issues delivered every week to your doorstep anywhere in the world.
- Free access to the web edition (News Track at www.chemicalweekly.com), including access to the archives (for more than 12 years) in a searchable database format.
- Free access to ChemXchange - database of advertisers - where you can locate suppliers and users of your products and services

India’s only Web Based Directory on Indian Chemical Industry and Trade

ChemicalWeekly Buyers’ Guide

The Chemical Weekly Buyers’ Guide is the most definitive and primary source of information on the chemical and allied industries in India. This Directory is available on a web-based platform ensuring timely and accurate information.

The CWBG includes three databases:
@ Chemicals and related products
@ Chemical plant, equipment & instrumentation
@ Consultants

COVERS
♦ Manufacturers
♦ Dealers
♦ Indentors
♦ Merchant Exporters

Contact Person: Cristian Godena
Description:
Cam, founded in 1949, has been the first Italian designer of automatic machines for packaging into cartons. Throughout the years, Cam range of machines has expanded and CAM can now supply complete packaging lines for Pharmaceutical industry. At present, CAM trade mark represents a structure involving 14 Manufacturing Companies, 19 Trade Centers with Agents distributed in 27 countries and 15 After Sales Centers. CAM employs more than 700 people, has a turnover of 110 million Euros per year and sold over 20,000 machines worldwide.

Product:
Automation and Robotics, Filling Equipments, Machinery, Packaging Equipment & Supplies, Process Automation & Controls

A.S. Automations

Booth No: R51 - BEC
Address: 98,99 & 105, Moraya Industrial Estate Ltd, T201/1 Midc Bhosari, Pune 411026 India
Tel: 9890198565
Fax: 020 46769082
Email: asautomations@yahoo.com
Website: www.asautomations.com

Contact Person: Sudhir Pangaokar
Description:
Founded in 1999, A.S.Automations has ever since focused on developing innovative solutions for quality control on pharma packaging lines, strictly tailored to the specific needs and real practical demand. The company offers a wide range of application specific and well established detection systems for the control of pharmaceutical packaging and which includes the manufacture of various products like Non filled Detection Systems, Product recovery systems, collators, PVC cleaning System etc. Our continuous developments in instruments and processes ensures that the most modern technology in electronics, optics and image processing is available to end user.

Address: A. Berents GmbH & Co. KG Henleinstrasse 19 – 21, Stuhr, D 28816, Germany
Tel: 49 421 87111-0
Email: mail@becomix.de
Website: www.becomix.de
Description: BECOMIX stands for efficient homogenizing technology, competent plant engineering as well as highest quality & reliability. Numerous patents and current applications for patents prove the continuous innovation of the BECOMIX engineers. A multitude of process “revolutions” concerning the production of emulsions, dispersion’s, shampoos, sterile productions, food etc... has been developed together with and for our clients in our laboratory. The BECOMIX mixing technology allows the most efficient processes such as e.g. HOT/COLD for the production of emulsions, where the hot wax phase is emulsified directly with cold water phase, so that the cooling time is saved to greatest possible extend.

Wenzhou Jingguan Machinery Co. Ltd  
**Booth No:** T17 - BEC  
**Address:** 5th Floor, 6th Building, Mechanical Zone, Yunjiang Standard Factory Area, Nanbin District, Ruian City, Zhejiang, China  
Tel: 0086-577-66808181  
Fax: 0086-577-65677732  
Email: jg-machine@hotmail.com  
Website: www.bellseiko.com  
**Contact Person:** Peiyu Qian

**Description:** Wenzhou Jingguan Machinery Co., Ltd is the manufacturer that specializes in manufacturing series of machinery equipments of tube filling and sealing machine and cartoning machine and so on. Our company has best quality machines and perfect service, our machines sold to more than 30 provinces in China and abroad to southeast, the southeast asia, the middle east, Romania, Australia, Africa and other countries and regions. Welcome to develop hand in hand with Jingguan.

**Product:**  
Filling Equipments, Machinery, Packaging Equipment & Supplies

---

WENZHOU KANGPAI PHARMACEUTICAL MACHINERY CO., LTD  
**Booth No:** I94 - BEC  
**Address:** 5 Wei Yi East Branch Road, Lantian Industrial Park, Longwan District, Wenzhou, CHINA  
Tel: -88912179  
Fax: -88918790  
Email: jerry@kangp.cn  
Website: www.kangp.cn  
**Contact Person:** WANG FENG

**Description:** Kangpai Pharmaceutical Machinery is a famous enterprise that specializes in development and manufacture of solid preparation equipment. Main products include microwave vacuum dryers, tunnel microwave dryers, cabinet microwave sterilization dryers, efficient coating machines, large-capacity multi-pyramid mixers, efficient boiling dryers, boiling granulating dryers, efficient wet granulators and non-standard pharmaceutical equipment.

**Product:**  
Machinery, Processing Equipments, solid preparation equipment, dryers

---

Werum IT Solutions Ltd  
**Booth No:** A56 - BEC  
**Address:**; Bangkok, Thailand; Bangkok, 10500, Thailand  
Tel: 66 20205720  
Email: david.margetts@werum.com  
Website: www.werum.com  
**Contact Person:** David Margetts

**Description:** Werum IT Solutions is the world’s leading supplier of manufacturing execution systems (MES) and manufacturing IT solutions for the pharmaceutical and biopharmaceutical industries. Our out-of-the-box PAS-X software product is run by the majority of the world’s top 30 pharmaceutical and biotech companies but also by many mid-sized manufacturers. Werum’s manufacturing IT solutions help pharma manufacturers to increase efficiency, improve productivity, and meet regulatory requirements. The range of projects includes global MES programs with multi-site rollouts all over the world as well as single-site solutions in individual countries. Founded in 1969, Werum is headquartered in Lüneburg, Germany, and has many locations in Europe, America, and Asia.
West Pharmaceuticals Packaging India Pvt Ltd.

**Booth No:** P39 - BEC

**Address:** 102, Gowra Grand, 1-8-384 & 385, Sardar Patel Road, Begumpet, Hyderabad, Telangana 500003, India

**Tel:** 040 4940 1111

**Email:** alok.chandorkar@westpharma.com

**Website:** www.westpharma.com

**Contact Person:** Alok Chandorkar

**Description:** Committed to quality, collaboration, service and innovation. West is a leading global manufacturer in the design and production of technologically advanced, high quality, integrated containment and delivery systems for injectable medicines.

**Product:** Packaging Equipment & Supplies

---

West Pharmaceuticals Packaging India Pvt Ltd.

**Booth No:** BA27 - BKC

**Address:** 102, Gowra Grand, 1-8-384 & 385, Sardar Patel Road, Begumpet, Hyderabad, Telangana 500003, India

**Tel:** 40 49401111

**Email:** Ashwini.Bhisikar@westpharma.com

**Website:** www.verux.com

**Contact Person:** Alok Chandorkar

**Description:** Verux™ seals and stoppers are empowered by West Pharmaceutical Services, Inc., a company with more than 90 years of pharmaceutical packaging and delivery expertise. We work hand-in-hand with pharmaceutical companies to ensure the medicines they make are delivered safely to patients, by providing authentic, fit-for-purpose, quality pharmaceutical packaging solutions for distribution in emerging countries. By working together with our clients, we can make a difference in the health and lives of people around the world. Our stopper portfolio includes lyo, serum, and serum-laminated stoppers in different sizes.

**Product:** Packaging Equipment & Supplies, Packaging components & injectables

---

WILCO AG

**Booth No:** E34 - BEC

**Address:** Rigackerstrasse 11, Wohlen, Switzerland, Wohlen, CH-5610

**Email:** vivek@groversequip.com

**Website:**

**Contact Person:** Jaime Cobo

**Description:** WILCO AG offers a wide range of inspection systems (CCIT/Vision) for the demanding requirements of pharmaceutical, chemical, food, packaging and automotive industries. WILCO AG has developed and patented inspection systems for a wide variety of applications such as:

- Laser based headspace gas analysis
- The vacuum based LFC (liquid filled containers) leak testing method
- Differential pressure method
- X-Ray to detect foreign particles, deformations and other defects
- Vision systems for inspection of particles and cosmetic defects
- High-speed mass spectrometry to measure very small leaks

Wisepac Active Packaging Components Co., Ltd.

**Booth No:** R20 - BEC

**Address:** 3F, Building 8, No.888 Shuangbai Rd., Shanghai, 201108, China

**Tel:** +86 21 54295543

**Fax:** +86 21 54296506

**Email:** wisepac@wisepac.com

**Website:** www.wisepac.com

**Contact Person:** Kevin Qian

**Description:** Wisepac Active Packaging Components Co., Ltd. is dedicated to providing high quality desiccant products and advanced moisture-proof application solutions for clients in electronics, medicine, biotechnology, machinery, automobile parts, container maritime transport and other industries. Founded in Sept. 2001, Wisepac now has two manufacturers in Kunshan and Yantai, China, one raw material factory in Inner Mongolia, China.

**Product:** Filling Equipments, Health and Safety Products, Packaging Equipment & Supplies, Desiccant (Moisture-proof)
**Exhibitors Profile**

**Wraptech Machines Pvt Ltd**

**Booth No:** P5 - BEC  
**Address:** Wraptech Machines Pvt. Ltd. Plot No D-273/274/275, TTC Indl. Area, MIDC, Turbhe, Thane, Maharashtra - 400705  
**India**  
**Tel:** 022 61524403  
**Fax:** 022 2761 2807  
**Email:** swapnil@wrapmachines.com  
**Website:** www.wrapmachines.com  

**Contact Person:** Swapnil Majalkar  

**Description:**  
Wraptech Machines is a Mumbai based packaging machine manufacturer & packaging solution provider. With over 25 years experience that has helping shape the Indian food & pharmaceutical sector, we are the preferred choice for many big brands in India and Abroad.

**Product:**  
Filling Equipments, Machinery, Packaging Equipment & Supplies

---

**Wuhan Sinocon New Chemical Materials Co., Ltd.**

**Booth No:** BB20 - BKC  
**Address:** Wuhan Sinocon New Chemical Materials Co., Ltd.  
**Head office:** Room 301-303, Chuangye Building, Qixiong Rd., Wujiashan, Dongxihu District, WUHAN CHINA 430040  
**Factory:** SINOCON Chemicals, Guangming Road, Huanggang chemical zone, Huangzhou District, CHINA  
**Tel:** -83229482  
**Fax:** -83096643  
**Email:** whsinocon@aliyun.com  
**Website:** www.plasticizer.cn  

**Contact Person:**  

**Description:** Wuhan Sinocon New Chemical Materials Co., Ltd. is a high-tech enterprise which engaging mainly on producing fine chemical products. The company’s technical force is very rich. It lies in the interjunction of Beijing-Shanghai expressway and Huo-Lian expressway, and the Xinyi city is one of the most important traffic hinges of East China. The DongLonghai Railway and the majority pathway from the Northeast to the Changjiang Delta cross and form a “cross” within the border; the Beijing-Hangzhou Grand Canal and Xindai Canal run through east and west;  

**Product:**  
Chlorine formic acid esters; Isocyanate class; Acetal class; Pesticide class

---

**Xinyi Huili Fine Chemical Co., Ltd.**

**Booth No:** BB16 - BKC  
**Address:** Jingyi road xinyi tangdian chemical zone jiangsu province China  
**Tel:** -88606458
