

Mühdorfer – Finest Bedding

Mühdorfer is producing quality bedding since 1919 at Haidmühle, in Germany's Bavarian Forest natural park. Mühdorfer provides down pillows and comforters of the highest quality to sophisticated and exclusive costumers around the world.

The company was founded in 1919, when Sidonie Mühdorfer started manufacturing quality pillows and comforters from goose down. Located in Haidmühle, still completely fulfills all the requirements of the enterprise. The calcium-free, pure mountain spring water ensures the high quality of the processed goose down. After cleaning the raw material in the fresh water from the Bavarian Forest Mountain and after being cool air-dried, the bacteria and dust-free down is filled into bedding products at a state-of-the art plant.

The quantum leap towards becoming a global provider for exclusive customers originally lifted off with Mühdorfer's participation at a hotel fair in the United Arab Emirates. In 1999, this meant an order for the initial provisioning of the Burj Al Arab and onwards to many subsequent orders from all over the world.

Regional lines of business also started to grow strongly since 1987. Further shops were opened in Passau and Munich. The responsibility for this growth is clearly attributed to the current proprietors and chief executive officers Elisabeth Hintermann and Maximiliana Pangerl, who made the hotel sector to the core competence of the organization.

With its philosophy of supplying „The best bedding there is“, Mühdorfer is satisfying the demands of customers such as Burj Al Arab, Kempinski, Radisson Hotel Group, Steigenberger/InterCity, Mövenpick, Jumeirah, InterContinental Hotel Group, Belmond, Pentahotels, The Dorchester Collection, Hotel Sacher Vienna, Atlantis The Palm Dubai, Hotel Adlon Kempinski Berlin, Armani Hotel Milan, Mandarin Oriental, Hotel Bayerischer Hof Munich, The Dolder Grand Zurich, Hotel Diamond Hill Sochi, Millennium Bab Al Qasr Abu Dhabi, The Peninsula Shanghai, Rosewood Hong Kong, Monte Carlo Bay Resort, Hotel Hassler Rome, right through to customized solutions e. g. for cruise line ships such as AIDA, Viking River, Viking Ocean, Scenic Cruise Lines.

The most well known costumer is the prestigious Burj Al Arab, the only 7-star hotel in the world. Mühdorfer delivered the complete initial requirement of pillow and down comforters to Dubai, guaranteeing guests „sweet dreams from the Arabian Nights“.

One particular side effect that reflects the top-quality of Mühdorfer bedding is confirmed by the fact that almost every hotel guest wants to take a pillow home for his private use. This is useful additional revenue, both for the hotel and for Mühdorfer.

Everyone has great confidence of going forward in Haidmühle, a place where bedding of highest quality has been produced for almost 100 years.
